

Pricing disclaimer

Disclaimer: List prices shown do not include shipping and handling cost, delivery cost by your local VELUX Dealer or applicable sales tax. Final unit pricing can be 10 - 15% higher depending on your location, services provided and final delivery of the skylight to the job site. Many of the skylights do not include flashing's or blinds, these can be purchased separately.

All VELUX Skylights, Roof Windows, Sun Tunnel Skylights, Flashing kits and blinds must be purchased through a qualified VELUX Dealer. Please see the "Where To Buy" section of this website for a list of VELUX Dealers near you.

By opening the attached pricing PDF, you acknowledge that you have read and understood the above disclaimer.

FCM custom sizes

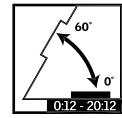

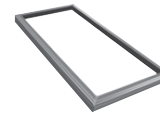

Skylights available to fit outside curb dimensions including flashing of 17¼" - 49¾" wide by 17¼" - 70¾" long with 14 working day lead-time.

Laminated glass is limited to 17¼" to 49¾" wide by 17¼" to 49¾" long for a 14 working day lead-time. Larger units will have a 24 working day lead-time.

VELUX requires outside curb dimensions, then builds an FCM to the closest ½" increment. Therefore, spacing between the outside curb dimension, including flashing and the skylight dimension, can range from ⅛" to ¾" overall.

The diagram illustrates two skylight units mounted on a curb. Red dashed lines extend from the curb to the skylight frames. Red arrows at the bottom indicate the 'Outside curb dimension (including flashing)' which spans the width of the curb and the flashing on both sides. Another set of red arrows indicates the 'Skylight dimensions' which are the width of the skylight frames themselves.
